ConVault Tank Liner

Aboveground Fueling Systems

Our ConVault tank lining covers all ferrous metals inside the tank, the undersides of the manway lids and the interior tank fittings. The lining is a Glidden Paints MASTIC that meets MIL-C-4556, NATA and FAA standards. It has also been approved for use by all of the major aviation fuel refiners. The lining is approved for all hydrocarbon based fuels and all grades and types of Turbine Fuels.

TANK LINING APPROVED FOR:

JET-A | JP-4 | JP-5 | AVGAS-100L | AVGAS-80LL | MOGAS
OXYGENATED FUELS | ALCOHOL BASED SOLVENTS

***The mastic material comes with a 20-year warranty for approved product applications by Glidden Paints. Other products may be warranted after submission and approval of an MSDS for manufacturer review on a case-by-case basis. ***
