

# KRUEGER SENTRY GAUGE

## The Leak Gauge—Type K

Price Book Page 6

Calibration: Consists of 3 pieces. Outer plastic piece, inner plastic piece, and a piece of paper in between. Optional glass inner piece is available.

Red Lock Nut: HDPE Plastic. Also available in aluminum or PVC.

Bushing: Aluminum bushing, can be 2", 1.5". Special package allows for a Stainless Steel Bushing also.

Internal Rods: Standard construction is aluminum rods. There are no other options for this gauge due to floatation.

76" and smaller Polypropylene Float  
77" and taller Poly Coated Cork Float

Part Number—  
K-(size opening)-(total length)-(list options)  
Sample—K-2-48-Guard

### What it is:

Top mounted liquid leak gauge that can measure from 6 inches to 170 inches in depth. Bushing size can be 2" or 1.5". Gauges are custom made in house to fit your tank. This gauge is designed to monitor either the interstitial space of a double wall containment system, or it can mount into an external monitoring pipe.

### Additional Options:

**Audible Alarm Accessory:** This add on feature can turn your mechanical visual gauge into an audible leak detection alarm. (*price book page 8*)

**Gauge Guard:** A cover that protects the exposed plastic components on top of the gauge.

### Material Choices and Limitations:

Standard choices are listed on picture to the left.

Due to floatation, this gauge does not have many material options. The leak gauge is rarely exposed to the liquid. If it is not compatible and it is exposed, the gauge must be replaced afterward.
